

Caught *by Accident*

The State of HR Identity Fraud Detection

98%

of HR teams have experienced candidate fraud.

42%

of hiring fraud is detected only after employment begins and credentials are issued.

68%

of hiring and employee fraud is uncovered by human instinct—a gut check, not a security tool.

NEARLY A QUARTER,

24%

of organizations spend 1 to 3 months fully resolving a single fake hire, absorbing compounding costs across delayed timelines, backfill expenses, team disruption, and compliance exposure.

“**1 to 3 months**
to resolve a single
fake hire”
